Robertson Coatings offer a wide range of specialised coating and maintenance services that provide our clients a flexible, professional, and competitively priced solution whilst maintaining a personalised service. This offers our clients peace of mind and the convenience of dealing with one company.

With over 15 years of Australia wide industry experience in small, medium, and large contract management services, Robertson Coatings is recognised for delivering high quality services and products.

Robertson Coatings provide flexible maintenance programs, project management and a diverse range of specialised coating services.

Safety Focus

Robertson Coatings is committed to maintaining the health and safety of people employed at the company, or people affected by our work, and in doing so have adopted a 'ZERO' accident and injury policy.

Our objectives are:

- To achieve an accident free workplace
- To make sure health and safety is considered in all planning and work activities and is an integral part of every managerial and supervisory decision
- To involve our employees/contractors in the decision making process through regular communication, consultation and training
- To provide a continuous programme of education and learning to ensure that our employees work in the safest possible manner
- To identify and control all possible hazards in the work place through hazard identification and risk analysis
- To ensure all potential accidents/incidents are controlled and prevented
- To provide effective injury management and rehabilitation for all employees.

The success of our health and safety management system is due to the total commitment of management and the work team in following safe work practices, complying with safety instructions and ensuring that open and honest communication between parties occurs at all times.

Quality Assurance

With a focus on quality control and assurance, Robertson Coatings endeavor to ensure that all product and services supplied use the best possible materials, in the most comprehensive way, to the highest standard, in order to exceed customer expectation using measurable and accountable processes.

Robertson Coatings have ISO 9001/2008 as well as Health & Safety AS 4801 certification, ensuring that you are dealing with a company that meets the highest standards of quality and safety.

Our quality focus is based on:

- PLAN – Understand the expectations of our customers and establish objectives and processes to deliver required results
- DO – Implement the processes developed using the highest quality materials and human resources
- CHECK – Monitor and evaluate the implemented processes by testing results against predetermined objectives
- ACT – Apply actions necessary for improvement if the results require change

The Robertson Coatings quality goal is to ensure that excellence is inherent in every process undertaken and we believe that whilst we continuously strive to improve our standards of quality and customer service we will gain a competitive edge.
